Affordable Website Creation & Marketing Integration with the Click of a Mouse

Create an industry-specific dynamic Website in less than an hour and establish your Internet presence immediately — *all from your Web browser!* With InSite Builder, do more than build static Web pages, generate a Website that interacts with your visitors and keeps them coming back.

- Easily apply content for key Web pages, including Home, About, Products, Services, and Contact.
- Simply activate pre-populated content for product categories, technologies, and manufacturers.
- Generate customer interactivity via automated online promotions.
- Quickly define and apply “metatags” to your Web pages to make them search engine friendly.
- Offer downloadable content such as printable literature and maps.
- Turnkey package includes annual domain name registration and Web/email hosting.
